## THE WATER CYCLE PROJECT

In this project, you will identify and describe all of the steps of the water cycle, including: *evaporation, transpiration, condensation, precipitation, and collection*

**Choose one of the following:**

- Create a PowerPoint that fully describes and explains all the steps of the water cycle (minimum of 6 slides including a cover page, at least 5 relevant pictures, and minimum 28 font). You will need to hand in a printed copy of your PowerPoint.
- Create a short children’s book **OR** comic strip that illustrates the steps of the water cycle from the point of view of water molecule (includes a minimum of 6 pages).
- Create an original game using at least 12 facts you have learned about the water cycle (hand-in typed detailed instructions and include a minimum of 5 relevant graphics)
- Create a 3D model that shows all of the steps of water cycle (be sure to label and describe each step).

**Grading Rubric:**

CATEGORY	4	3	2	1	0
<b>Content - Accuracy</b>	All steps and information are accurate on the project	Most of the steps and information are accurate on the project	Some of the steps and information are accurate on the project	There is a lot of inaccurate information on the project	N/A
<b>Required Elements</b>	Includes all required elements	Missing 1 of the required elements	Missing 2 of the required elements	Missing several required elements	N/A
CATEGORY	4	3	2	1	0
<b>Neatness and Organization</b>	The project is exceptionally neat and the information is very well-organized	The project has attractive formatting and well-organized information	The project has well-organized information	The formatting and organization of material are confusing to the reader	N/A
